

Main Class

```
import java.security.Security;
import java.util.Set;

public class Main {
    public static void main(String[] args) {
        Set<String>
algoritmos=Security.getAlgorithms("MessageDigest");
        System.out.println();
        for(String algoritmo: algoritmos){
            System.out.println(algoritmo);
        }
    }
}
```

Resultado

```
"C:\Users\A24BORJAPP\AppData\Local\Programs\Eclipse Adoptium\jdk-21.0.8.9-hotspot\bin\java.exe" "-javaagent:C:\Program Files\JetBrains\IntelliJ IDEA\bin\idea-agent.jar" -jar C:\Users\A24BORJAPP\AppData\Local\Programs\Eclipse Adoptium\jdk-21.0.8.9-hotspot\bin\java.exe
